

Education

AUGUST 2018 - MAY 2023

Al-Quds Bard College, Al-Quds University, Abu Dis - BCS (*Bachelor degree in Computer Science*)

Professional Experience

Corals LLC - Front-end Web Developer

MARCH 2024 - JUNE 2024

- **Next.js Development**
 - Developed the user interface of multiple pages from scratch using Figma designs, ensuring both mobile and desktop compatibility.
 - Leveraged both client-side and server-side rendering to enhance performance and SEO.
 - Implemented features such as infinity scroll and pagination for improved user experience.
 - Utilized Tailwind CSS for efficient and responsive styling.
 - Utilized NextUI component library and created multiple custom components to meet specific design requirements.
 - Enhanced user accessibility by integrating React Aria with NextUI components.
 - Created custom hooks using Zustand for efficient state management.
 - Fixed various bugs and resolved build issues to ensure smooth project deployment.
 - Applied TypeScript expertise to enhance code quality and maintainability.
- **Additional Responsibilities:**
 - Gained experience with PHP and MySQL, working on server-side scripting and database management.
 - Used Laragon for local development environment setup and management.

Skills

1. **Frontend:** HTML5, CSS3, and JavaScript, React and Next.js.
2. **Backend:** fetching, displaying, CRUD operation data using APIs and databases, Databases(PostgreSQL, MYSQL, SQLITE, MongoDB),.
3. **Professional Skills - Languages:** Proficient in Both Arabic and English.
4. **Tools/Frameworks:**Git/Github, Postman, VScode, Phpstorm, Nextjs, Tailwind, Typescript, Nodejs, Prisma, AuthJS/NextAuth.

Projects

1. **Quizify** (Full Stack AI Quiz Platform) | [Github Repo](#) | [Live Demo](#)
 - Utilized React and Next.js 13 for a dynamic and performant front-end.
 - Leveraged a SupaBase PostgreSQL database with Prisma ORM for efficient database access.
 - Integrated NextAuth with Google OAuth for secure user authentication.
 - Employed Tailwind CSS for a responsive and visually appealing UI.
 - Integrated OpenAI's ChatGPT 3.5 for generating dynamic quiz questions and answers.
2. **RentMyStuff** (Full Stack Rental Platform) | [Github Repo](#) | [Live Demo](#)
 - Developed an online rental platform from scratch utilizing React Next.js, and Tailwind CSS for seamless and responsive user interfaces.
 - Implemented secure user authentication using Next-auth.
 - Leveraged MongoDB and Prisma for efficient data storage and retrieval.
 - Utilized custom React hooks for code reuse and enhanced efficiency.
 - Implemented continuous integration for easy scaling and updates.
